Mile marker 20.00 marks the trailhead on Knoxville Road.
Cross over wire fence east of the road to start the trail.

1.6 miles from the trailhead, make a sharp turn at road intersection.
Look for stacked rock to mark intersection.

Trail follows the creek, up the canyon, until an intersection with an old ranch grade that heads south.
Hartwig Ranch, shown by a sign is northeast of the corner crossing, and easy to avoid trespassing. Stay west of the sign and cross through the fence or the easement.

The last 500-feet of the trail before the fence crossing is steep.

Fence crossing will have black pipe over barbed wire to mark the crossing. A wood stake crossing will be constructed in the near future.

Two stacked rock cairns mark the route up the hill.

Berryessa Peak Trail - Sheet 2
Intersection of the trail and the gravel service road. Continue on the road to the summit. See Sheet 4.

Walking the road to the summit, the towers will come into view.
