August 29, 2014
President Barack Obama
The White House
1600 Pennsylvania Ave, NW
Washington, DC 20500

Dear President Obama:

The Elem Indian Colony Pomo Tribe strongly supports the designation of the Berryessa Snow Mountain National Monument.

The Berryessa Snow Mountain region is the crown jewel of Northern California's wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use off road motorized vehicles in designated areas, mountain bike, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California's second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.
Elem Indian Colony Pomo Tribe is a Federally Recognized Indian Tribe by Congress under the 1934 Re-Organization Act. Our Tribe continues to provide ceremonial songs, dances, and blessings for the water, earth, natural resources, animals, and spirit of the lands. As this Berryessa Snow Mountain continues to carry these sacred spirits for the goodness of all the people who respect and honor the beauty of this Mountain.

Our Ancestors always believed the earthly well beings of these sacred lands and mountains protect our environment for a healthier life of peace and harmony.

The Elem Indian Colony Pomo Tribe strongly supports permanent protection for the federal public lands of the Berryessa Snow Mountain region as a National Monument.

Sincerely,

[Signature]

The Honorable Mike Thompson
231 Cannon House Office Building
U.S. House of Representatives
Washington, D.C. 20515

Dear Congressman Thompson:

I write to again share California's strong support for the establishment of the Berryessa Snow Mountain National Monument. While your legislation, H.R. 5545, was an important legislative effort, action by the Obama Administration seems to be the next logical step to protect this vital area.

As you know, the region encompassing Berryessa Snow Mountain is of unique biologic diversity and significance to California and the nation. The designation of Berryessa Snow Mountain as a National Monument will provide much needed permanent protection in terms of its management, public access and long-term protection of environmental resources.

It is important to underscore that the efforts to designate these lands as a National Monument is widely supported by a diverse group of interests, including local businesses, nearby cities and all five counties within the region, private landowners, citizens, farmers, conservationists and recreation groups. In addition to the economic boost to the local economy estimated up to $50 million, there seems to be broad support in ensuring that the region would be permanently protected for its recreation, habitat and watershed values.

Thank you for your leadership on the protection of Berryessa Snow Mountain. If your office should have any questions, please contact Todd Ferrara, Deputy Secretary for External Affairs in my office at (916) 653-6656.

Sincerely,

John Laird
Secretary for Natural Resources

Re: Permanent Protection of the Berryessa Snow Mountain Region

Dear Congressman Mike Thompson,

As you know, the Berryessa Snow Mountain region is the crown jewel of Northern California’s wild inner Coast Range. Teeming with biological diversity, this lesser known region of California is located less than one hundred miles from the Sacramento and Bay Area metropolitan regions. Extending protection to this dazzling outdoor recreational wonderland is of utmost importance.

Among the wide army of wildlife this area calls home are nearly half of California’s dragonfly species, California’s second largest population of wintering bald eagles, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, blue oak woodlands, red fir forests, and an annual explosion of wildflowers. The botanical biodiversity of the Berryessa Snow Mountain region makes it the center of California’s global “hot spot.”

Safeguarding nature is also good for business. Permanent protection of this region will enhance favorable economic circumstances for our local communities; provide well-managed recreation opportunities; increase coordination between federal agencies; preserve the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I urge you to move forward to permanently protect the Berryessa Snow Mountain region as a National Monument or National Conservation Area. You have my support and any help I can offer.

Sincerely,

Noreen Evans

Congressman John Garamendi, District 3, CA  
Congressman Jared Huffman, District 2, CA

RE: Permanent protection of the Berryessa Snow Mountain region as a National Monument

Dear President Obama:

The Mendocino County Board of Supervisors supports the permanent protection of the Berryessa Snow Mountain region as a National Monument. It is one of the most biologically diverse, yet least known regions of California. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild Inner Coast Range. These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain in Mendocino County. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use off-road motorized vehicles in designated areas, mountain bike, enjoy both motorized and non-motorized boating and water recreation, and more.

The Berryessa Snow Mountain region has botanical biodiversity that makes the area an important part of the California global hot spot. We are pleased that a portion of the Mendocino National Forest is included.

The National Monument designation will not only enhance the status and coordination of the lands but increase the ability to form Memorandums of Understanding on projects and management in the region with all stakeholders including the supportive Native American tribes.

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

THE BOARD OF SUPERVISORS

CAREE BROWN  JOHN MCCOWEN  JOHN PINCHES  DAN GIERDE  DAN HAMBURG
First District  Second District  Third District  Fourth District  Fifth District
The County of Mendocino joins other local governments spanning across five Counties who strongly support permanent protection for the federal public lands of the Berryessa Snow Mountain region as a National Monument. Thank you for considering this important designation that will affect a portion of the Mendocino National Forest.

Sincerely,

[Signature]

John Pinches, Chair

CC: Senator Dianne Feinstein  
    Senator Barbara Boxer  
    Congressman John Garamendi, District 3, CA  
    Congressman Mike Thompson, District 3, CA  
    Congressman Jared Huffman, District 2, CA  
    Sally Jewell, Secretary of the Interior  
    Michael Boots, Acting Chair of the White House Council on Environmental Quality  
    Tom Vilsack, Secretary of Agriculture
RESOLUTION NO. 14-119

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE COUNTY OF YOLO, STATE OF CALIFORNIA, SUPPORTING PERMANENT PROTECTION OF THE BERRYESSA SNOW MOUNTAIN REGION AS A NATIONAL CONSERVATION AREA OR A NATIONAL MONUMENT

WHEREAS, Tuleyome and supportive business owners, anglers, elected officials, private landowners, and other community members seek to permanently protect the Berryessa Snow Mountain federal public lands as a National Conservation Area or a National Monument and increase economic opportunities for surrounding communities and has approached the Yolo County Supervisors for a resolution; and

WHEREAS, Representatives Mike Thompson, John Garamendi and Jared Huffman have introduced the Berryessa Snow Mountain National Conservation Area Act (HR 1025) and Senator Barbara Boxer had introduced companion legislation (S. 483); and

WHEREAS, Congress has not acted and a presidential declaration for a Berryessa Snow Mountain National Monument under the Antiquities Act of 1906 can accomplish the goals that the supporters of the Berryessa Snow Mountain region seek to achieve; and

WHEREAS, it is in the interest of Yolo County to permanently preserve these nearby public lands, which are used by many of its residents as a place to visit and enjoy the regions vast recreational activities including hiking, swimming, hunting, fishing, horseback riding, photography, motor boating, camping, orienteering, wildlife viewing, scientific research, mountain bicycling, motorized recreation on authorized routes, and nature study; and

WHEREAS, National Conservation Area and National Monument designations have been shown to help local communities diversify their economies and increase tourism, as well as helping attract businesses, thereby generating economic benefits for nearby communities through local employment and tax revenue; and

WHEREAS, National Conservation Area or National Monument designation would permanently protect some of the most biologically diverse public land in the nation, from the oak woodlands around Lake Berryessa and in the Blue Ridge in the south, stretching 100 miles north to the 7,000 foot peak of Snow Mountain Wilderness in the Mendocino National Forest with Shasta red fir forests;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of the County of Yolo hereby endorses the permanent protection of the Berryessa Snow Mountain region as a National Conservation Area or a National Monument and authorizes its members to send letters to President Obama, the Secretaries of Interior and Agriculture, Chair of the Council on Environmental Quality, California Senators Feinstein and Boxer asking for their support as well as Representatives Mike Thompson, John Garamendi, and Jared Huffman and Senator Barbara Boxer, thanking them for their work to permanently protect the federal public lands of the Berryessa Snow Mountain region.
PASSED AND ADOPTED this 4th day of November, 2014 by the following vote:

AYES: Provenza, Villegas, Saylor.
NOES: Rexroad, Chamberlain.
ABSENT: None.
ABSTAIN: None.

Re: Meeting Request for on Berryessa Snow Mountain National Monument

Dear Senator Barbara Boxer,

Thank you so much for all of the hard work that you have done to help make the Berryessa Snow Mountain National Monument happen. We seem to be so close. I also appreciate your work over the past 15 years to designate over 1 million acres of Wilderness in California.

It has been my pleasure as the newly elected member of the California Assembly representing much of the National Monument to introduce Assembly Joint Resolution 4 asking President Obama to designate the Berryessa Snow Mountain National Monument. And, I am pleased to say that AJR 4 passed the Assembly on February 14th and the State Senate on April 6th.

Copies of the Resolution have been forwarded to the White House and a copy is attached hereto.

I am writing this letter to ask for a meeting with you, in your Sacramento office, to further discuss passage of the National Monument designation. I will be joined by Cecilia Aguiar-Curry, Mayor of Winters, and Diane Dillion, Supervisor of Napa County.
We would like to thank you for your work and discuss what more we can all do to encourage the President to act now.

The folks at Tuleyome, with their partners, have done so much to build strong local support. This is good for the environment and the agencies involved. It will enhance recreational opportunities for the Bay Area and Sacramento metropolitan areas and it provides economic opportunities for local gateway towns.

Thank you again for all that you have done.

Sincerely,

BILL DODD

Assemblymember, 4th Assembly District

RESOLUTION NO. 2541 (2015)

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF LAKEPORT
SUPPORTING THE PERMANENT PROTECTION OF THE
BERRYESSA SNOW MOUNTAIN REGION AS A NATIONAL MONUMENT

WHEREAS the County of Lake, other affected counties, elected officials within the
affected counties, the California State Legislature, Tuleyome (a non-profit organization),
supportive business owners, supportive private landowners, and many community members
seek permanent protection of federal public lands in the Berryessa Snow Mountain Region as a
National Monument; and

WHEREAS the City of Lakeport wishes to join the broad support in the Berryessa Snow
Mountain Region for permanent protection of the region as a National Monument through
congressional or administration action; and

WHEREAS on February 5, 2015, Representatives Michael Thompson, John Garamendi,
and Jared Huffman, along with Senators Barbara Boxer and Dianne Feinstein introduced the
Berryessa Snow Mountain National Monument Act (HR 761 and S 393); and

WHEREAS the United States Congress has not acted on introduced legislation and a
presidential declaration for a Berryessa Snow Mountain National Monument under the
Antiquities Act of 1906 can accomplish the goals sought to be achieved through the introduced
legislation; and

WHEREAS residents of the City of Lakeport, as well as visitors to the City, enjoy the
recreational and other opportunities on federal lands in the Berryessa Snow Mountain Region,
including hiking, swimming, hunting, fishing, horseback riding, photography, camping,
orienteering, wildlife viewing, scientific research, mountain bicycling, motorized recreation on
authorized routes, and nature study; and

WHEREAS National Monument designations elsewhere have helped local communities
diversify their economies and increase tourism, as well as helped to attract businesses, thereby
generating economic benefits for nearby communities through local employment and tax
revenue; and

WHEREAS the Winters Chamber of Commerce commissioned a study that determined
that a National Monument designation can add up to $50 million to local gateway economies
over a 5 year period; and

WHEREAS National Monument designation would permanently protect world renown
plate tectonic geology and some of the most biologically diverse public lands in the United
States, from the oak woodlands in the southern Berryessa region to the 7,000 foot peak of Snow Mountain in the Mendocino National Forest with Shasta red fir forests in the north;

NOW, THEREFORE, BE IT RESOLVED that the City of Lakeport hereby urges the permanent protection of federal lands in the Berryessa Snow Mountain Region as a National Monument.

The foregoing Resolution was passed and adopted at a regular meeting of the City Council on the 2nd day of June, 2015, by the following vote:

AYES: Council Members Turner, Mattina, Parlet, and Spillman and Mayor Scheel
NOES: None
ABSTAINING: None

RESOLUTION R2015-49

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF NAPA, STATE OF CALIFORNIA, SUPPORTING H.R. 761 AND S. 393, BILLS TO DESIGNATE THE BERRYESSA SNOW MOUNTAIN NATIONAL MONUMENT IN THE STATE OF CALIFORNIA

WHEREAS, on April 21, 2015, City Council approved a motion to discuss and consider formal support for H.R. 761 and S. 393 at their next regular meeting; and

WHEREAS, said bills will designate the Berryessa Snow Mountain region as a National Monument; and

WHEREAS, the Berryessa Snow Mountain region encompasses more than 350,000 acres across Napa, Mendocino, Lake, Solano and Yolo Counties; and

WHEREAS, according to a Press Release dated February 5, 2015, Congressman Thompson states that, "Protecting the Berryessa Snow Mountain Region will help boost tourism, grow the local economy, improve recreation opportunities and protect important species. By designating the region as a national monument, we can unite all federal lands under one management plan and preserve this national treasure for generations to come."

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Napa, as follows:

1. The City Council hereby supports HR 761 and S. 393 which designate the Berryessa Snow Mountain National Monument in the State of California.

2. This Resolution shall take effect immediately upon its adoption.

I HEREBY CERTIFY that the foregoing Resolution was duly adopted by the City Council of the City of Napa at a public meeting of said City Council held on the 5th day of May by the following vote:

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

Please support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument!

Sincerely,

Cecilia Aguiar-Curry  
Mayor, City of Winters

RESOLUTION NO. 4-02

A RESOLUTION OF THE BOARD OF DIRECTORS
OF THE NAPA COUNTY REGIONAL PARK AND OPEN SPACE DISTRICT
SUPPORTING THE PROPOSED
BERRYESSA SNOW MOUNTAIN NATIONAL MONUMENT

WHEREAS, the non-profit land conservation organization Tuleyome, together with supportive business owners, elected officials, private landowners, and other community members seek to permanently protect the Berryessa Snow Mountain federal public lands in Napa, Yolo, Solano, Lake and Mendocino counties as a National Monument and has approached the Napa County Regional Park and Open Space District for a resolution of support; and

WHEREAS, it is in the interest of Napa County to permanently preserve both nearby public land, including the Cedar Roughts Wilderness, the Knoxville Recreation Area, the Lake Berryessa Recreation Area and all other parcels of federal land within the Berryessa Snow Mountain region of the county, as well as those public lands outside the boundaries of the county for the protection of our region’s vast watersheds, wildlife habitat and outdoor recreation opportunities; and

WHEREAS, there are various single parcels of federal public land within the Berryessa Snow Mountain lands in Napa County that are important to protect as wildlife habitat as well as being integral to plans for a county-wide trail system, that have recently been threatened with inclusion on a federal surplus land list, which was successfully opposed by local public agencies and private organizations active in the area, and that National Monument designation is needed to permanently protect; and

WHEREAS, National Monument designations have been shown to help communities diversify their economies and increase tourism, thereby generating economic benefits for nearby communities through local employment and tax revenue; and

WHEREAS, National Monument designation would permanently protect some of the most biologically diverse public land in the nation, from the oak woodlands around Lake Berryessa in the south, stretching 100 miles north to the 7,000 foot peak of Snow Mountain Wilderness in the Mendocino National Forest; and

WHEREAS, permanently protected public lands will enhance and ensure that local residents and visitors can continue to enjoy opportunities for many recreational activities including hiking, hunting, fishing, horseback riding, photography, camping, orienteering, wildlife viewing, scientific research, mountain biking, motorized recreation on authorized routes, nature study, and other forms of land and water-based recreation; and

WHEREAS, the Lake Berryessa Recreation Area is a federal recreation destination with motor boating, water skiing, paddling, hiking, swimming, other forms of recreational opportunities available, and concession areas with overnight accommodations, campgrounds, marinas, and retail facilities, as well as government offices; and Napa County wishes to ensure that such authorized activities are not affected by National Monument designation; and

WHEREAS, the Napa County Regional Park and Open Space District is currently engaged in acquiring adjacent federal land under the Recreation and Public Purposes Act (43 U.S.C. 869), thereby providing more management resources in both staff and funding as such land is incorporated into the District's conservation and recreation plans, and may in future acquire additional land that is adjacent to federal tracts, within the region.
NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of the Napa County Regional Park and Open Space District ask President Obama to designate the Berryessa Snow Mountain public lands as a National Monument on the condition that the designation will not affect the authorized activities at Lake Berryessa and that there be a limited exemption to continue to allow transfers under the Recreation and Public Purposes Act (43 U.S.C. 869), where the purpose for which the land is to be conveyed is consistent with the purposes of the National Monument.

THE FOREGOING RESOLUTION WAS DULY AND REGULARLY ADOPTED by the Board of Directors of the Napa County Regional Park and Open Space District at a regular meeting of said Board held on the 13th day of October, 2014, by the following vote:

AYES: DIRECTORS  Karen Bower, Tony Norris, Michael Healy, Dave Kiger

RESOLUTION NO. 2014-190

RESOLUTION OF SOLANO COUNTY SUPPORTING PERMANENT PROTECTION OF THE BERRYESSA SNOW MOUNTAIN REGION AS A NATIONAL CONSERVATION AREA OR A NATIONAL MONUMENT

WHEREAS, Tuleyome and supportive business owners, anglers, elected officials, private landowners, and other community members seek to permanently protect the Berryessa Snow Mountain federal public lands as a National Conservation Area or a National Monument and increase economic opportunities for surrounding communities, and

WHEREAS, Representatives Mike Thompson, John Garamendi and Jared Huffman have introduced the Berryessa Snow Mountain National Conservation Area Act (HR 1025) and Senator Barbara Boxer have introduced companion legislation (S.483) to permanently protect the federal public lands of the Berryessa Snow Mountain region.

WHEREAS, Congress has not acted and a presidential declaration for a Berryessa Snow Mountain National Monument under the Antiquities Act of 1906 can accomplish the goals that the supporters of the Berryessa Snow Mountain region seek to achieve, and

WHEREAS, it is in the interest of Solano County to permanently preserve these nearby public lands, which are used by many of their residents as a place to visit and enjoy the region's vast recreational activities including hiking, swimming, hunting, fishing, horseback riding, photography, motor boating, camping, orienteering, wildlife viewing, scientific research, mountain bicycling, motorized recreation on authorized routes, and nature study, and

WHEREAS, National Conservation Area and National Monument designations have been shown to help local communities diversify their economies and increase tourism, as well as helping attract businesses, thereby generating economic benefits for nearby communities through local employment and tax revenue, and

WHEREAS, National Conservation Area or National Monument designation would permanently protect some of the most biologically diverse public land in the nation, from the oak woodlands around Lake Berryessa in the south, stretching 100 miles north to the 7,000 foot peak of Snow Mountain Wilderness in the Mendocino National Forest with Shasta red fir forests.

NOW, THEREFORE, BE IT RESOLVED that Solano County hereby endorses the permanent protection of the Berryessa Snow Mountain region as a National Conservation Area Act or a National Monument to permanently protect the federal public lands of the Berryessa Snow Mountain region.
Resolution No. 2014-190

PASSED AND ADOPTED by the Solano County Board of Supervisors at its regular meeting on October 7, 2014 by the following vote:

AYES: SUPERVISORS Hannigan, Spering, Thomson, Vasquez and Chair Seifert

NOES: SUPERVISORS None.

EXCUSED: SUPERVISORS None.

BOARD OF SUPERVISORS, COUNTY OF LAKE, STATE OF CALIFORNIA
RESOLUTION NO. 2014-125

RESOLUTION OF THE COUNTY OF LAKE SUPPORTING PERMANENT PROTECTION
OF THE BERRYESSA SNOW MOUNTAIN REGION AS EITHER A
NATIONAL CONSERVATION AREA OR A NATIONAL MONUMENT

WHEREAS, Tuleyome and supportive business owners, anglers, elected officials, private
landowners, and other community members seek to permanently protect the Berryessa Snow
Mountain federal public lands as a National Conservation Area or a National Monument and
increase economic opportunities for surrounding communities and have approached the Board
of Supervisors of the County of Lake for a resolution of support; and

WHEREAS, Representatives Mike Thompson, John Garamendi and Jared Huffman have
introduced the Berryessa Snow Mountain National Conservation Area Act (H.R. 1025) and
Senator Barbara Boxer has introduced companion legislation (S.483); and

WHEREAS, Congress has not acted and a presidential declaration for a Berryessa Snow
Mountain National Monument under the Antiquities Act of 1906 can accomplish the goals that
the supporters of the Berryessa Snow Mountain region seek to achieve; and

WHEREAS, it is in the interest of the County of Lake to permanently preserve these nearby
public lands, which are used by many of their residents as a place to visit and enjoy the region's
vast recreational activities including hiking, swimming, hunting, fishing, horseback riding,
photography, motor boating, camping, orienteering, wildlife viewing, scientific research,
mountain bicycling, motorized recreation on authorized routes, conservatively sound grazing,
and nature study; and

WHEREAS, our Board of Supervisors unanimously supported the proposed National
Conservation Area designation and proposed legislation, and supports the inclusion of those
provisions in any National Monument designation, including hunting activities and water rights
consistent with National Conservation Area approach.

WHEREAS, National Conservation Area and National Monument designations have been
shown to help local communities diversify their economies and increase tourism, as well as to
help attract businesses, thereby generating economic benefits for nearby communities through
local employment and tax revenue; and

WHEREAS, National Conservation Area or National Monument designation would permanently
protect some of the most biologically diverse public land in the nation, from the oak woodlands
around Lake Berryessa in the south, stretching 100 miles north to the 7,000 foot peak of Snow
Mountain Wilderness in the Mendocino National Forest with Shasta red fir forests; and

WHEREAS, 246,100 acres of the federal lands proposed for protection as a National
Conservation Area or as a National Monument lie within the boundaries of the County of Lake.
RESOLUTION NO. 2014-125

NOW, THEREFORE, BE IT RESOLVED that the County of Lake hereby endorses the permanent protection of the Berryessa Snow Mountain region as either a National Conservation Area Act or a National Monument, and authorizes the Board of Supervisors to send letters to President Obama, the Secretaries of Interior and Agriculture, Chair of the Council on Environmental Quality, California Senators Feinstein and Boxer asking for their support as well as Representatives Mike Thompson, John Garamendi, and Jared Huffman, thanking them for their work to permanently protect the federal public lands of the Berryessa Snow Mountain region.

THIS RESOLUTION was passed and adopted by the Board of Supervisors of the County of Lake at a regular meeting thereof on the 21st day of October 2014, by the following vote:

AYES: Supervisors Smith, Farrington and Rushing
NOES: Supervisors Comstock and Brown

President Barack Obama
The White House
1600 Pennsylvania Ave. NW
Washington, DC 20500

Dear President Obama:

I, Alan Galbraith, Mayor of St. Helena, strongly support the proposal to designate the Berryessa Snow Mountain region as a National Monument.

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is an outdoor wonderland rich in unique natural features and recreational opportunities.

These public lands stretch nearly one hundred miles from Putah Creek, south of Lake Berryessa, to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more. A National Monument designation will increase our region’s visibility and accessibility and add to our important outdoor recreation and tourism industries.

The Berryessa Snow Mountain region includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, Tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that contributes to the status of the California Floristic Province as a “biological hot spot.”

Permanent protection of this region will increase economic opportunities for our local economies; improve coordination between federal agencies; provide well-managed recreational opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Monument!

PROCLAMATION

WHEREAS, the County of Napa, other affected counties, elected officials within the affected counties, Tuleyome (a non-profit organization), supportive business owners, supportive private landowners, and many community members seek permanent protection of federal public lands in the Berryessa Snow Mountain Region as a National Monument;

WHEREAS, the City of St. Helena wishes to join the broad support in the Berryessa Snow Mountain Region for permanent protection of the region as a National Monument through congressional or administration action;

WHEREAS, on February 5th, 2015, Representatives Michael Thompson, John Garamendi and Jared Huffman along with Senators Barbara Boxer and Dianne Feinstein introduced the Berryessa Snow Mountain National Monument Act (HR 761 and S 393);

WHEREAS, the United States Congress has not acted on introduced legislation and a presidential declaration for a Berryessa Snow Mountain National Monument under the Antiquities Act of 1906 can accomplish the goals sought to be achieved through the introduced legislation;

WHEREAS, residents of the City of St. Helena, as well as visitors to the City, enjoy the recreational and other opportunities on federal lands in the Berryessa Snow Mountain Region, including hiking, swimming, hunting, fishing, horseback riding, photography, camping, orienteering, wildlife viewing, scientific research, mountain bicycling, motorized recreation on authorized routes, and nature study;

WHEREAS, National Monument designations elsewhere have helped local communities diversify their economies and increase tourism, as well as helped to attract businesses, thereby generating economic benefits for nearby communities through local employment and tax revenue; and

WHEREAS, the Winters Chamber of Commerce commissioned a study that determined that a National Monument designation can add up to $50 million to local gateway economies over a 5 year period; and

WHEREAS, National Monument designation would permanently protect world renown plate tectonic geology and some of the most biologically diverse public lands in the United States, from the oak woodlands in the southern Berryessa region to the 7,000 foot peak of Snow Mountain Wilderness in the Mendocino National Forest with Shasta red fir forests in the north;

NOW, THEREFORE, BE IT RESOLVED that the City of St. Helena hereby urges the permanent protection of federal lands in the Berryessa Snow Mountain Region as a National Monument.

Dated: February 24, 2015

Alan Galbraith, Mayor of the City of St. Helena
Yolo County
Board of Supervisors

Resolution No. 13-14

RESOLUTION OF YOLO COUNTY SUPPORTING PERMANENT PROTECTION OF THE BERRYESSA SNOW MOUNTAIN REGION

WHEREAS, Tuleyome and supportive business owners, outdoor enthusiasts, elected officials, private landowners, and other community members seek to permanently protect the Berryessa Snow Mountain public lands as a National Conservation Area and increase economic opportunities for surrounding communities; and

WHEREAS, it is in the interest of Yolo County to permanently preserve these nearby public lands, which are enjoyed by many residents; and

WHEREAS, National Conservation Area designations have been shown to help local communities diversify their economies and increase tourism, thereby strengthening new and existing businesses and generating economic benefits for nearby communities through local employment and tax revenue; and

WHEREAS, National Conservation Area designation would permanently protect some of the most biologically diverse public land in the nation, from the oak woodlands in the Blue Ridge and around Lake Berryessa in the south, stretching 100 miles north to the 7,000 foot peak of Snow Mountain Wilderness in the Mendocino National Forest; and

WHEREAS, permanently protected public lands will provide local residents and visitors with opportunities for many recreational activities including hiking, swimming, hunting, fishing, horseback riding, photography, camping, orienteering, wildlife viewing, scientific research, mountain bicycling, motorized recreation on legally designated routes authorized routes, and nature study.

NOW, THEREFORE, BE IT RESOLVED that the Yolo County Board of Supervisors hereby asks Congress to designate the Berryessa Snow Mountain public lands as a National Conservation Area and authorizes the Chairman of the Board Supervisors to send letters to California Senators Dianne Feinstein and Barbara Boxer as well as Congressmen Mike Thompson, Jared Huffman, John Garamendi and other key officials urging support for the permanent protection of existing public lands in the Berryessa Snow Mountain region.

PASSED AND ADOPTED this 12th day of February 2013 by the following vote:

Re: Support designation of a Berryessa Snow Mountain National Monument

Dear President Obama:

I strongly support the designation of the Berryessa Snow Mountain National Monument.

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use off road motorized vehicles in designated areas, mountain bike, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global “hot spot.”

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.
We are also located at the lower end of the Cache Creek. Much of the Cache Creek watershed is located within the boundaries of the Berryessa Snow Mountain National Monument and this designation will help to ensure water supply and water quality to Yolo County and the Conaway Ranch.

For these reasons, I strongly support permanent protection for the federal public lands of the Berryessa Snow Mountain region as a National Monument.

Sincerely,

Jim Provenza
Yolo County Supervisor

Dear Senators Feinstein, Boxer, and Congressman Thompson:

As the Assemblymember representing the Berryessa Snow Mountain region, I write in strong support of preserving this crown jewel of Northern California's wild inner Coast Range. Designating this biologically diverse region as a National Conservation Area or National Monument will enhance economic opportunities for our local communities while ensuring the use and enjoyment of these beautiful lands for future generations.

Located less than one hundred miles from Sacramento and the Bay Area, this captivating outdoor wonderland is rich in unique natural features with many recreational options. These public lands stretch from the shores of Lake Berryessa to the flanks of Snow Mountain. The Berryessa Snow Mountain region boasts botanical biodiversity, including thriving blue oak woodlands, red fir forests, creek side habitat and wildflowers. Nearly half of California’s dragonfly species, butterflies, river otters, trout, tule elk, deer, mountain lions, bears and osprey may be found here. The region also provides habitat to California’s second largest population of wintering bald eagles. Additionally, opportunities for activities like hiking, horseback riding, fishing, hunting, camping, bird watching, kayaking and other water recreation will generate increased interest.

These precious lands and fauna cannot advocate for themselves, so it is our responsibility to speak on their behalf. For the generations yet to come, I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument.

Sincerely,

Dear President Obama:

I, Peter White, the City of St. Helena Vice Mayor; strongly support the proposal to designate the Berryessa Snow Mountain region as a National Conservation Area or a National Monument.

Also, as a former Bureau of Reclamation Concessionaire and lifetime resident of the Region, I firmly believe the Berryessa Snow Mountain region is the crown jewel of Northern California’s wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is an outdoor wonderland rich in unique natural features and recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more. A National Conservation Area or National Monument designation will increase our region’s visibility and accessibility and add to our important outdoor recreation and tourism industries.

The Berryessa Snow Mountain region includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, Tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that contributes to the status of the California Floristic Province as a “biological hot spot.”

Permanent protection of this region will increase economic opportunities for our local economies; improve coordination between federal agencies; provide well-managed recreational opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument!

Dear Senators Dianne Feinstein and Barbara Boxer, and Congressman Mike Thompson,

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global “hot spot.”

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument!

Dear Dianne, Barbara, and John,

The Berryessa Snow Mountain region is the crown jewel of Northern California's wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California's second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

There is widespread regional support among residents, businesses and townships for the creation of a permanent status for the Berryessa Snow Mountain region. Permanently protecting the Berryessa Snow Mountain will protect the plants and animals, enhance and better manage the region's many resources, and help our local economies.

We support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument. We urge you to help make this a reality.

Sincerely,

Pete and Helen

RE: Berryessa Snow Mountain Region

Dear Senator Feinstein, Senator Boxer and Congressman Garamendi:

On September 10, 2013 the Solano County Board of Supervisors voted to support HR 1025 – Berryessa Snow Mountain National Conservation Area. A copy of our minutes for this item is attached.

I, personally, continue to support the permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument. Permanent protection will improve economic opportunities; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area’s natural beauty, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

As you give review and consideration of the Berryessa Snow Mountain region, I encourage your support to establish the area as a National Conservation Area or a National Monument.

Sincerely,

John M. Vasquez
Board of Supervisors
Solano County - 4th District

February 2, 2015

President Barack Obama
The White House
1600 Pennsylvania Ave, NW
Washington, DC 20500

Dear President Obama:

The Winters Chamber of Commerce strongly supports the proposal to designate the Berryessa Snow Mountain region as a National Monument. The Berryessa Snow Mountain region contains vital conservation and science values including plate tectonic geology and biologic diversity; recreational opportunities for all, and can offer economic opportunities for gateway communities.

The Winters Chamber of Commerce recently commissioned Economic Planning Systems to conduct an Economic Impact Report on the designation of a Berryessa Snow Mountain National Monument. The study found that the National Monument designation has the potential to generate a gain of nearly $50 million in economic activity during the five year period following a designation for the gateway communities. The report can be found on our web site.

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild Inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is an outdoor wonderland rich in unique natural features and recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more. A National Monument designation will increase our region’s visibility and accessibility and add to our important outdoor recreation and tourism industries, as shown in the economic study.

The Berryessa Snow Mountain region includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, Tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has
botanical biodiversity that contributes to the status of the California Floristic Province as a “biological hot spot.”

This diversity is a result of adaptations of plants due to the serpentine soils in the Berryessa Snow Mountain region. These serpentine soils are remnants of over 140 million years of tectonic plate activity between the North American, Farallon, and Pacific plates.

Permanent protection of this region will increase economic opportunities for our local economies; improve coordination between federal agencies; provide well-managed recreational opportunities; safeguard the area’s natural beauty, sensitive areas, geologic history, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

The Winters Chamber of Commerce supports permanent protection for the public lands of the Berryessa Snow Mountain region as a National Monument!

Re: Berryessa Snow Mountain National Monument

Dear President Obama:

The Napa Chamber of Commerce strongly supports the proposal to designate the Berryessa Snow Mountain region as a National Monument. The Berryessa Snow Mountain region contains vital conservation and science values including plate tectonic geology and biologic diversity; recreational opportunities for all, and can offer economic opportunities for gateway communities.

Economically, the Napa Valley is a gateway to the region to the south and west. Permanent protection will support our local communities surrounding the park.

The Napa Chamber of Commerce supports the conservation of our vital natural resources. Preserving this region is our responsibility for our future generations. We therefore strongly encourage your support of permanent protection for the public lands of the Berryessa Snow Mountain region as a National Monument.

Thank you for your valuable consideration.

Chair

Re: Establishing the Berryessa Snow Mountain National Monument

Dear President Obama:

On behalf of The Conservation Alliance and the undersigned member businesses, we are writing to convey our strong support for the protection of the Berryessa Snow Mountain region in Northern California. Unfortunately, the gridlock in Congress has stalled the locally supported effort to protect this unique and underappreciated landscape and the time to act is now.

The Berryessa Snow Mountain region stretches from Putah Creek below Lake Berryessa across remote stretches of Cache Creek north to Snow Mountain. The area is a wonderful outdoor playground easily reachable from Sacramento and the Bay Area. This largely undiscovered national treasure is home to a wealth of recreation opportunities, a wide range of plants and animals and beautiful scenic views.

Protecting Berryessa Snow Mountain will reap benefits for California and the nation’s outdoor recreation economy. Each year, the outdoor industry supports more than six million American jobs, generates $646 billion in direct consumer spending and contributes $80 billion in federal, state and local taxes. Designating the Berryessa Snow Mountain region a national monument would help strengthen the local economy and further bolster California’s active outdoor recreation economy that generates $85.4 billion in consumer spending, 732,000 jobs, $27 billion in wages and salaries, and $6.7 billion in state and local tax revenue.

There is a long history of public support for protecting Berryessa Snow Mountain, locally and statewide. Years of attempts by California’s Congressional Delegation, including Representatives Thompson and Garamendi and Senator Boxer, have demonstrated the overwhelming public interest in protecting Berryessa Snow Mountain, but have not succeeded due to a gridlocked Congress. Accordingly, we are asking that you use your authority under the Antiquities Act to designate Berryessa Snow Mountain as a National Monument.

Sincerely,

cc: Senator Barbara Boxer
Representative Mike Thompson
Representative John Garamendi
Tom Vilsack, Secretary, U.S. Department of Agriculture

Dear Senators Dianne Feinstein and Barbara Boxer, and Congressman John Garamendi,

The Berryessa Snow Mountain region is the jewel of Northern California's inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Located one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is an outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California's second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument!

Sincerely,

Clay Shannon

Washington, DC 20500

Dear President Obama:

The Conaway Preservation Group strongly supports the designation of the Berryessa Snow Mountain National Monument.

The Berryessa Snow Mountain region is the crown jewel of Northern California's wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use off road motorized vehicles in designated areas, mountain bike, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California's second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

The Conaway Preservation Group owns the 17,300 acre Conaway Ranch located west of Sacramento and east of Woodland, California. We are dedicated to sustainable farming, habitat protection and public access compatible with farming practices and public safety. We farm rice and tomatoes and other crops on the ranch. We have placed 3 conservation easements on the property for tricolored blackbird, giant garter snake, and wildlife friendly farming practices.
President Obama
July 7, 2014
Page two

We are also located at the lower end of the Cache Creek. Much of the Cache Creek watershed is located within the boundaries of the Berryessa Snow Mountain National Monument and this designation will help to ensure water supply and water quality to Yolo County and the Conaway Ranch.

The Conaway Preservation Group strongly supports permanent protection for the federal public lands of the Berryessa Snow Mountain region as a National Monument!

Sincerely,

The White House
1600 Pennsylvania Ave. NW
Washington, DC 20500

Dear President Obama:

I strongly support the designation of the Berryessa Snow Mountain National Monument.

I am Craig McNamara and I was honored and humbled to be named the 2014 California Agriculturalist of the Year. As a farmer I think of myself first and foremost as a conservationist and environmentalist. Protecting our nation’s land, water and air resources are my most important goals. As a farmer, it is incumbent upon me to be an example for the rest of society. Therefore, it is natural that I would want to create educational and demonstration projects on our land. “Conservation has to be a critical part of what we’re doing on the farm and as citizens of California.”

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global “hot spot.”

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument!

Re: Permanent Protection for the Berryessa Snow Mountain Region

Dear Senators Dianne Feinstein and Barbara Boxer, and Congressman Mike Thompson:

Napa County has over 61,000 acres of federal land in the Berryessa Snow Mountain region, including the Knoxville Recreation Area, the Lake Berryessa Recreation Area, the Cedar Roughs Wilderness, and thousands of additional acres of federal land that would benefit from permanent protection.

Napa Valley, more than any other community in California, understands the economic power that conservation holds. By fighting for and establishing the first Agricultural Preserve in 1968, our community was able to protect the wine industry and our environment from overdevelopment and sprawl. Today the contribution of the wine industry to the local economy not only includes many direct and indirect goods and services needed to produce wine, but includes the development of Napa Valley as a premiere tourist destination.

A National Conservation Area protecting the federal land in Napa County is a natural complement to the Agricultural Preserve. The economy of the Lake Berryessa area in Napa County has long been dependent on outdoor recreation. By calling for the protection of this land and its resources for multiple uses including both ecological and recreational, the stage is set for similar long term economic benefits from visitors who visit the area for hiking, birding, boating, horseback riding, kayaking and the many other forms of recreation enjoyed in the area. As with agriculture, for the economy to be sustainable, the natural resources must be protected.

These lands in Napa County and throughout the Berryessa Snow Mountain region provide important wildlife habitat for sensitive and endemic species, and for the many diverse species of amphibians, reptiles, birds, waterfowl, and mammals that live there. They are also fertile grounds for some of the highest plant diversity in the nation.
This area needs permanent protection to ensure it remains available as wildlife habitat and for public recreational use, and to protect the exceptional biodiversity in the region. The landscape level planning that federal designation would bring would further protect the region’s habitat values on a scale relevant to wildlife movement corridors and would provide better managed recreation consistent with the biological values.

For these reasons our Board of Directors unanimously supports permanent protection for the public lands of the Berryessa Snow Mountain region through federal designation as either a National Conservation Area or National Monument.

Sincerely,

Linda Reiff
President & CEO
Napa Valley Vintners

The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global “hot spot.”

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument.

Dear Mr. President:

The Berryessa Snow Mountain region is the crown jewel of Northern California's wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. The area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities located less than one hundred miles from the Sacramento and Bay Area metropolitan regions. As a local business owner, I am proud to support permanent protection for Berryessa Snow Mountain.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California's second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument.

Dear Senators Dianne Feinstein and Barbara Boxer, and Congressman Mike Thompson,

The Berryessa Snow Mountain region is a critical part of Northern California's wild inner Coast Range. We farm on the edge of this precious landscape. It is one of the most biologically diverse, yet least known regions of California. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities. These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more. This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California's second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot." Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations. I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument!

Sincerely,

Daniel Desmond

Dear Mr. President:

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. The area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities located less than one hundred miles from the Sacramento and Bay Area metropolitan regions. As a local business owner, I am proud to support permanent protection for Berryessa Snow Mountain.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global “hot spot.”

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument.

As a local business owner, I am proud to support permanent protection for Berryessa Snow Mountain.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California's second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument.

Dear Mr. President:

The Berryessa Snow Mountain region is the crown jewel of Northern California's wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. The area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities located less than one hundred miles from the Sacramento and Bay Area metropolitan regions. As a local business owner, I am proud to support permanent protection for Berryessa Snow Mountain.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California's second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument.

Dear Mr. President:

The Berryessa Snow Mountain region is the crown jewel of Northern California's wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. The area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities located less than one hundred miles from the Sacramento and Bay Area metropolitan regions. As a local business owner, I am proud to support permanent protection for Berryessa Snow Mountain.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California's second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument.

Washington, DC 20500

Dear Mr. President:

The Berryessa Snow Mountain region is the crown jewel of Northern California's wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. The area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities located less than one hundred miles from the Sacramento and Bay Area metropolitan regions. As a local business owner, I am proud to support permanent protection for Berryessa Snow Mountain.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California's second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument.

Dear Mr. President:

The Berryessa Snow Mountain region is the crown jewel of Northern California's wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. The area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities located less than one hundred miles from the Sacramento and Bay Area metropolitan regions. As a local business owner, I am proud to support permanent protection for Berryessa Snow Mountain.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California's second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument.

Washington, DC 20500

Dear Mr. President:

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. The area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities located less than one hundred miles from the Sacramento and Bay Area metropolitan regions. As a local business owner, I am proud to support permanent protection for Berryessa Snow Mountain.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument.

Sally Jewell
United States Secretary of the Interior
Department of Interior
1849 C Street, N.W.
Washington, DC 20240

Dear Sally,

I hear you had quite a trip to the Berryessa Snow Mountain region. But, as I have come to learn and see in this photo you are very often leading the way.

I am writing about the permanent protection of this region as a National Monument of which I am a strong supporter. As you know it was my “backyard” when I served that region as a Congressman.

I am particularly proud of my role in the establishment of the Yolo Basin Wildlife Area just west of Sacramento that protects some critically important parts of the Pacific Flyway. And, I am honored that it was dedicated as the Vic Fazio Wildlife Area. It was fun with President Bill Clinton when we attended the dedication.
November 14, 2014

President Barack Obama
The White House
1600 Pennsylvania Ave. NW
Washington, DC 20500

Dear President Obama:

I am writing to express my support of the permanent protection of the Berryessa Snow Mountain region. On behalf Self Help Law Center, located in Clearlake, a city near the proposed designation, we recognize the value of protecting this region close to where we live and work. I am also an elected member of the school board of Lake County, California’s largest school district, Konocti Unified.

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is an outdoor wonderland rich in unique natural features and recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

The Berryessa Snow Mountain region includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, Tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global “hot spot.”

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreational opportunities;
safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

As a school board member and someone who values education as you do, I personally feel that this designation provides a great educational opportunity for all the students in our area.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument!

The Berryessa Snow Mountain region includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, Tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global “hot spot.”

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreational opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument!

Dear President Obama:

I am writing to express my support of the permanent protection of the Berryessa Snow Mountain region. On behalf Scoops & Swirls, located in Calistoga, a city near the proposed designation, we recognize the value of protecting this region close to where we live and work.

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is an outdoor wonderland rich in unique natural features and recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

The Berryessa Snow Mountain region includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, Tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. Dear Senators Dianne Feinstein and Barbara Boxer, and Congressman John Garamendi,

The Berryessa Snow Mountain region is the crown jewel of Northern California's wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California's second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument!

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument!

Dear Senators Dianne Feinstein and Barbara Boxer, and Congressman John Garamendi,

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

Dear Senators Dianne Feinstein and Barbara Boxer, and Congressman John Garamendi,

The Berryessa Snow Mountain region is the crown jewel of Northern California's wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California's second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument!

Washington, DC 20500

Dear President Obama:

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is an outdoor wonderland rich in unique natural features and recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more.

The Berryessa Snow Mountain region includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, Tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global “hot spot.”

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreational opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

I support permanent protection for the public lands of the Berryessa Snow Mountain region as a National Conservation Area or National Monument!

The President
The White House
Washington, DC 20500

Dear President Obama,

We are writing to thank your Administration under the leadership of the Departments of the Interior and Agriculture for participating in the public meeting on December 19, 2014, in Napa, California to discuss the need to permanently protect the Berryessa Snow Mountain region as a national monument. The Berryessa Snow Mountain region is a unique landscape that is treasured for its scenic, recreational, natural, and economic values. As was clearly witnessed during this meeting, overwhelming local support from multiple segments of the surrounding communities exists for the creation of a national monument. We encourage you to use your authority under the Antiquities Act to designate the Berryessa Snow Mountain National Monument.

The Berryessa Snow Mountain area stretches 100 miles from blue oak woodlands near Putah Creek and the shores of Lake Berryessa in the south to the sub-alpine habitat of the Snow Mountain Wilderness in the Mendocino National Forest to the north. The proposed national monument would protect several diverse habitats that are home to a wide array of plants and animals including river otters, Tule elk and black bears, mountain lions, bald eagles and rare and native plants found nowhere else.

A national monument would not only protect these vital natural resources, but it is also good business. A recent economic report released by the Winters Chamber of Commerce found that a national monument would increase visitation to the region by 20-30 percent and generate up to $50 million for local economies over a five year period following a designation. The importance of the monument for both conservation and the local economy is reflected in the broad and deep list of monument supporters. The Berryessa Snow Mountain National Monument proposal is supported by the Boards of Supervisors in Yolo, Solano, Napa, Lake, and Mendocino counties; the state of California; Senators Boxer and Feinstein; and Representatives Mike Thompson, John Garamendi and Jared Huffman, as well as over 200 businesses and numerous stakeholder groups representing sportsmen, ranchers, off-road vehicle enthusiasts, mountain bikers, equestrians and conservation groups.

We thank Interior Secretary Sally Jewell, Agriculture Undersecretary for Natural Resources and Environment Robert Bonnie as well as other members of your administration for participating in this valuable public meeting to engage local communities about the importance of protecting the Berryessa Snow Mountain region. Protecting this area as a national monument would provide valuable economic benefits while simultaneously protecting biologically rich habitat and preserving it for current and future generations to enjoy. We urge you to use your authority under the Antiquities Act to designate the Berryessa Snow Mountain region as a national monument in response to the wishes of the local community.

Sincerely

Jamie Williams, President, The Wilderness Society

Gene Karpinski, President, League of Conservation Voters

Michael Brune, Executive Director, Sierra Club

October 9, 2014

President Barack Obama
The White House
1600 Pennsylvania Avenue NW
Washington, DC 20500

Dear President Obama:

On behalf of Defenders of Wildlife and our more than one million members and supporters nationwide, I strongly urge you to permanently protect the Berryessa Snow Mountain region by proclaiming it as California’s newest national monument.

The Berryessa Snow Mountain region is a hidden gem of northern California’s wild Inner Coast Ranges and is one of the most biologically diverse yet least known regions of the Golden State. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities for residents and visitors alike.

Public lands stretch nearly one hundred miles from the shores of Lake Berryessa in the south to the flanks of Snow Mountain in the north. The Berryessa Snow Mountain region – in the heart of California’s global biodiversity hot spot – is rich in unique plants, some of which are found nowhere else on Earth. The region’s thriving blue oak woodlands, red fir forests and creek side habitat set the scene for an annual explosion of wildflowers and provide habitat to a wide variety of wildlife, including nearly half of California’s dragonfly species, butterflies, Pacific fisher, trout, Tule elk, deer, mountain lions, black bears, osprey, and is home to California’s second largest population of wintering bald eagles.

The Berryessa Snow Mountain area also provides countless opportunities to hike, horseback ride, hunt, camp, ride motorized vehicles in designated areas, fish, watch birds, enjoy water sports and more. Permanent protection for the Berryessa Snow Mountain region isn’t just good for the environment and wildlife; it’s also good for the economy. The outdoor recreation industry supports more than 400,000 California jobs and generates $46 billion of economic activity in the Golden State every year. Protecting our special places encourages tourism, supports local businesses and creates desirable places to live and work.

California’s Berryessa Snow Mountain region is a national treasure worthy of permanent protection for continued enjoyment today as well as for future generations. Establishment of a national monument will improve coordination between federal agencies, safeguard important areas for climate change adaptation, protect our clean water and provide additional federal
funding opportunities for conservation management, invasive species eradication and recreational enhancement.

Defenders of Wildlife strongly supports permanent protection for the federal lands of the Berryessa Snow Mountain region as a National Monument and we urge you to take action to protect this special area for future generations to enjoy just as we do today.

Sincerely,

Dear President Obama:

Californians for Western Wilderness strongly supports the designation of the Berryessa Snow Mountain National Monument.

We are a citizens organization with close to 800 members, dedicated to preserving the West’s wildlands and educating people how they can effectively participate in the democratic process to achieve that goal.

We strongly support the use of the Antiquities Act, both when Congress refuses to act and when Presidents invoke it on their own initiative to protect special places on federal lands. We thank you for your previous monument designations, both large and small, and ask that you continue to use the authority it grants you.

The Berryessa Snow Mountain region in Northern California is one area deserving of protection as a monument. It is located within a short distance of both the Bay Area and Sacramento, and stretches almost 100 miles along the crest of the Inner Coast Range.

The area contains a wide diversity of habitats and is home to many species of plants and animals, some of which are relatively rare or coming back from the brink of extinction, like the Bald Eagle and Tule Elk.

Opportunities for recreation abound, from hiking and camping, to birdwatching, to photography, and many others. People can also engage in other forms of motorized and non-motorized recreation as well, where appropriate and regulated.

Finally, since the Inner Coast Range is an area that does not have many special designations such as parks or monuments on its federal lands, a designation would boost interest in the landscape. This would have the added benefit of giving the local economy a boost. However, the area merits protection on its own.

I attended the nearby University of California at Davis as an undergraduate, and my fellow students and I spent many days exploring the region. I’ve returned frequently in the years since, both by myself and with family and friends. Members of Californians for Western Wilderness
helped do some of the inventory work for the Cache Creek Wilderness, established in 2006 in the area. The rest of the Berryessa Snow Mountain region deserves special protection as well.

A national monument on these lands would allow future generations to be able to visit and enjoy them in the same manner as many others and I have. Californians for Western Wilderness urges you to designate a Berryessa Snow Mountain National Monument.

Sincerely,

Michael J. Painter
Coordinator

EQUINE LAND CONSERVATION RESOURCE

Saving land for horses and horse-related activities

08/13/2014

President Barack Obama
The White House
1600 Pennsylvania Ave. NW
Washington, DC 20500

Dear President Obama:

The Equine Land Conservation Resource strongly supports the designation of the Berryessa Snow Mountain National Monument.

The Berryessa Snow Mountain region is the crown jewel of Northern California's wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use off road motorized vehicles in designated areas, mountain bike, enjoy both motorized and non-motorized boating and water recreation, and more.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California's second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global "hot spot."

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

The loss of open land is a great and urgent threat to the future of equestrian activities in the United States. The Equine Land Conservation Resource, or ELCR, was founded to address this threat and to preserve land for equestrian use.
The California horse industry produces goods and services valued at $4.1 billion a year. California is home to an estimated 698,000 horses with more than 70 percent involved in showing and recreation. Public lands play an important role in equine activities such as trail riding, competition venues, stabling, grazing and more.

The Equine Land Conservation Resource strongly supports permanent protection for the federal public lands of the Berryessa Snow Mountain region as a National Monument.

Sincerely,

Holley Groshelk

Equine Land Conservation Resource, Executive Director

cce: Senator Dianne Feinstein
     Senator Barbara Boxer
     Congressman John Garamendi, District 3, CA
     Congressman Mike Thompson, District 5, CA

     Tom Vilsack, Secretary of Agriculture
July 9, 2014

President Barack Obama
The White House
1600 Pennsylvania Ave. NW
Washington, DC 20500

Dear President Obama:

The Blue Ribbon Coalition supports permanent protection of the Berryessa Snow Mountain Region. We have worked in partnership with Tuleyome, a regional conservation group based in Woodland, California, and Congressman Mike Thompson (H.R. 1025) and Senator Barbara Boxer (S.483) to assure the protection of the region's many natural resources and the recreational interest of the off road vehicle community. It is an innovative, strong partnership between interest groups that have been adversaries in the past. We have grown beyond those differences and charted a new future starting with the trust and actions taken together on this project.

The Berryessa Snow Mountain region is the crown jewel of Northern California's wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, enjoy sustainable off road motorized vehicle use in designated areas, mountain bike, enjoy both motorized and non-motorized boating and water recreation, and more.

Permanent protection of this region will improve economic opportunities for the local economies; increase coordination between federal agencies; provide well-managed recreation opportunities including casual and permitted off road vehicle activity on designated roads, trails and areas; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.
Designation of National Monuments by Presidential Proclamation can be a topic of heated controversy. We would prefer to see Congress act on the pending legislation, but perhaps you have noticed that waiting for Congressional inspiration can sometimes feel like an exercise in futility. This particular instance creates a unique opportunity to create a "win-win" Monument that will embody the principles espoused by even the staunchest opponents of Presidential authority. This proposal has been formed with meaningful input from diverse local stakeholders, and is supported by them. We strongly desire to seize a window of opportunity to protect these critical lands and recreational values.

The Blue Ribbon Coalition conditionally supports permanent protection for the federal public lands of the Berryessa Snow Mountain region as a National Monument if the presidential declaration includes the protections for the off road vehicle community embodied in the legislation and related narrative that we all support.

Sincerely,

Don

J.R. Young, Backcountry Hunters & Anglers-California, 408-761-8238

Sportsmen Welcome Conversation about Protecting Berryessa Snow Mountain

Napa, Calif. – Backcountry Hunters & Anglers today welcomed the Interior Secretary and Under Secretary of Agriculture to California for a public meeting about the opportunities to protect Berryessa Snow Mountain as a national monument.

“Hunting and angling are inextricably linked to healthy habitat. It is our responsibility as sportsmen to protect our wild country and public lands,” said J.R. Young, a volunteer leader of Backcountry Hunters & Anglers-California and resident of Los Gatos. “The Berryessa Snow Mountain region is a national treasure worthy of permanent protection for all visitors to enjoy.”

The Berryessa Snow Mountain region provides many places for outdoor recreation, including hunting and fishing. Blacktail deer, wild turkey, black bears, mountain lions and herds of wild tule elk call the region home. Trout streams in the region include the trophy trout fisheries of Putah Creek and the headwaters of the Eel River. The Middle Fork of Stony Creek in the Snow Mountain Wilderness is now state-designated wild trout water, and a segment of Putah Creek is proposed for this designation as well. The bass fishing in Clear Lake and Lake Berryessa is world-class.

Interior Secretary Sally Jewell, USDA Under Secretary Robert Bonnie and US Forest Service Chief Tom Tidwell will join Congressmen Mike Thompson and John Garamendi at the Napa Valley College Performing Arts Center for a community meeting about the potential to protect the existing public lands of the Berryessa Snow Mountain as a national monument.

Thus far, President Obama has protected 13 national monuments, including the San Gabriel Mountains in California, and the Rio Grande del Norte and the Organ Mountains-Desert Peaks in New Mexico, all of which allow hunting and fishing.
“It is significant that President Obama’s monument designations have protected access for hunters and anglers,” said Backcountry Hunters & Anglers Executive Director Land Tawney. “Conservation of and access to our natural heritage is critical for our economy, and the way of life that sportsmen and women intend to pass along to the next generation.”

The Chamber of Commerce of Winters, California, commissioned an economic study which indicated that a monument designation of the Berryessa Snow Mountain region could generate up to $50 million for local economies over a five year period. Already, California’s more than 1.8 million recreational anglers contribute $2.3 billion to the state’s economy annually, while the state’s 287,000 licensed hunters generate more than $964 million in economic impact (U.S. Fish and Wildlife Service, 2011 National Survey of Fishing, Hunting, and Wildlife Associated Recreation).

###

*Backcountry Hunters & Anglers seeks to ensure North America’s outdoor heritage of hunting and fishing in a natural setting, through education and work on behalf of wild public lands and waters. Online at [http://www.backcountryhunters.org/](http://www.backcountryhunters.org/)

Michael Boots, Acting Chair of the White House Council on Environmental Quality  
Tom Vilsack, Secretary of Agriculture
Dear Senators Feinstein and Boxer, and Congressman Huffman:

Permanent protection of the Berryessa Snow Mountain region has long been a top Redwood Chapter conservation priority. We consider this region, almost all of which lies with Chapter boundaries, to be the crown jewel of Northern California’s wild inner Coast Range. It is one of the most biologically diverse regions of California, and also one of the least-known despite being located less than one hundred miles from the Sacramento and Bay Area metropolitan regions.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful recreational opportunities for hikers, equestrians, hunters, campers, anglers, bird watchers, kayakers, boaters and more.

This area includes thriving blue oak woodlands, red fir forests, riparian habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and California’s second largest population of wintering bald eagles. The botanical biodiversity of the Berryessa Snow Mountain region makes it the core of the California global “hot spot.”

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreational opportunities; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

The Sierra Club Redwood Chapter supports permanent protection for the public lands of the Berryessa Snow Mountain region by any appropriate means, including federal designation as either a National Conservation Area or National Monument.

Sincerely,

Victoria Brandon
Chair, Sierra Club Redwood Chapter

RE: Permanently Protect Berryessa Snow Mountain
Dear President Obama,

ECOS is a coalition of environmental and social organizations working for social equity, public health and environmental sustainability in the Sacramento region, through land use planning, transportation planning, and habitat and agricultural preservation. Habitat 2020 is the conservation committee of ECOS whose members include Audubon Society, California Native Plant Society, Friends of Swainson’s Hawk, Save the American River Association, Save Our Sandhill Cranes, the Sierra Club, Stone Lakes National Wildlife Refuge Association, and the Sacramento Area Creeks Council.

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild Inner Coast Range.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global hot spot, and provides invaluable recreational opportunities to the State and the Nation.

Establishment of a National Monument will improve coordination between federal agencies, help adjustments to climate change, keep our water clean and provide additional federal funding opportunities for conservation management, invasive species eradication, and recreational enhancement.

Please provide permanent protection for the Berryessa Snow Mountain region.

Subject: Protection of the proposed Berryessa Snow Mountain National Monument

Dear Mr. President:

A coalition of businesses, conservation groups and other interests have been working to establish the proposed "Berryessa Snow Mountain National Conservation Area" on lands managed by the Bureau of Land Management and US Forest Service in California’s Napa, Mendocino and Lake counties. Unfortunately, Congress appears unlikely to act on the proposal in a timely manner, so we urge you to use your authority under the Antiquities Act to designate the region a national monument.

The proposed NCA is a region of amazing ecological diversity. This diversity begins with its geology, mixing ancient sea floor and young volcanic rocks in an exhibit of plate tectonics at work. Putah Creek, Cache Creek, Eel River—the principal water sources—give this diverse place life. Along with their tributaries, they are the threads of riparian habitat that harbor river otters, native fish, and sensitive amphibians such as the yellow-legged frog. Oak woodlands provide food and shelter to mule deer, black bear, mountain lion, and a vast number of birds. Chaparral clothes its more arid slopes, harboring native pollinators such as butterflies and hummingbirds. Remnants of California’s once extensive grasslands are being restored here, and feed herds of tule elk. Old growth forests support spotted owl, marten, and fisher. Rare and endemic plants on serpentine soils provide a laboratory of evolution. Over the landscape fly bald and golden eagles, peregrine falcons and goshawks. People visiting the region enjoy hiking, hunting, horseback riding, off-road vehicle recreation, mountain biking, scenic driving, swimming, fishing, camping and many other activities.

Studies have repeatedly shown that local economies benefit from special protective designations on federal public land. For example, private property values near the protected lands increase, as does the income generated from the increased demand for lodging, restaurants, outfitters, retailers, and other services. We believe that the designation of a Berryessa Snow Mountain National Monument will have similarly beneficial impacts for the affected region.

For these reasons, among others, we strongly support the designation of the Berryessa Snow Mountain region as a National Monument. Thank you for your consideration.

Sincerely,

Ryan Henson
Senior Policy Director

President Barack Obama
The White House
1600 Pennsylvania Ave. NW
Washington, DC 20500

Dear President Obama:

Environment California strongly supports the designation of the Berryessa Snow Mountain National Monument.

The Berryessa Snow Mountain region is the crown jewel of Northern California's wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Furthermore, the area is an outdoor wonderland, rich in unique natural features and recreational opportunities, that is located less than one hundred miles from the Sacramento and San Francisco Bay Area metropolitan regions.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use off road motorized vehicles in designated areas, mountain bike, and enjoy both motorized and non-motorized boating and other forms of water recreation.

The Berryessa Snow Mountain region includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California's dragonfly species, a wealth of butterflies species, river otters, trout, Tule elk, deer, mountain lions, bears, osprey, and one of California's largest population of wintering bald eagles. The Berryessa Snow Mountain region has rich botanical diversity that cannot be found anywhere else on the globe.

Permanent protection of this region will improve economic opportunities for our local economies; increase coordination between federal agencies; provide well-managed recreation opportunities; safeguard the area's natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

Environment California supports protecting the Berryessa – Snow Mountain Region because it is valuable wilderness space that is home to some of California’s most iconic plant and animal species. Our goal, as a state-wide environmental group, our goal is to protect wild open spaces to enable wildlife to thrive so that all current, and future, Californians can enjoy their state's ecological diversity.
Environment California strongly supports permanent protection for the federal public lands of the Berryessa Snow Mountain region as a National Monument.

Sincerely,

Nathan Weaver, Esq.

Washington, DC 20500

Dear Mr. President,

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild Inner Coast Range where public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities for our members to explore, research, hike, and enjoy unique lands rich in biodiversity.

This area includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers - many of them extremely rare, nearly half of California’s dragonfly species, a wealth of butterflies, birds, and wildlife, including habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that makes it the center of the California global hot spot.

Establishment of a National Monument will improve coordination between federal agencies, help adjustments to climate change, keep our water clean and provide additional federal funding opportunities for conservation management, invasive species eradication, and recreational enhancement.

The California Native Plant Society (CNPS) supports permanent protection for the Berryessa Snow Mountain region, and we ask your help to designate these lands as the Berryessa Snow Mountain National Monument.

Most respectfully,

Greg Suba
Conservation Program Director, CNPS

*The mission of CNPS is to conserve California native plants and their natural habitats, and increase understanding, appreciation, and horticultural use of native plants. CNPS is a California non-profit organization whose nearly 10,000 members work to promote native plant appreciation, research, education, and conservation through 34 regional chapters in California and Baja California, MX.*

President Barack Obama
The White House
1600 Pennsylvania Ave. NW
Washington, DC 20500

Dear President Obama:

The Glenn County Democratic Central Committee strongly supports the proposal to designate the Berryessa Snow Mountain region as a National Monument. The Berryessa Snow Mountain region contains vital conservation and scientific values including plate tectonic geology and biologic diversity; recreational opportunities for all, and economic opportunities.

A study recently commissioned by the Winters Chamber of Commerce found that a National Monument designation has the potential to generate a gain of nearly $50 million in economic activity during the five year period following a designation for the gateway communities. The report can be found on the website.

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is an outdoor wonderland rich in unique natural features and recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region provides wonderful opportunities to hike, horseback ride, hunt, camp, fish, bird watch, use motorized vehicles in designated areas, enjoy both motorized and non-motorized boating and water recreation, and more. A National Monument designation will increase our region’s visibility and accessibility and add to our important outdoor recreation and tourism industries, as shown in the economic study.

The Berryessa Snow Mountain region includes thriving blue oak woodlands, red fir forests, creek side habitat, an annual explosion of wildflowers, nearly half of California’s dragonfly species, a wealth of butterflies, river otters, trout, Tule elk, deer, mountain lions, bears, osprey, and provides habitat to California’s second largest population of wintering bald eagles. The Berryessa Snow Mountain region has botanical biodiversity that contributes to the status of the California Floristic Province as a “biological hot spot.”

This diversity is a result of adaptations of plants due to the serpentine soils in the Berryessa Snow Mountain region. These serpentine soils are remnants of over 140 million years of tectonic plate activity between the North American, Farallon, and Pacific plates.

Permanent protection of this region will increase economic opportunities for our local economies; improve coordination between federal agencies; provide well-managed recreational opportunities;
safeguard the area’s natural beauty, sensitive areas, geologic history, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

The Glenn County Democratic Central Committee supports permanent protection for the public lands of the Berryessa Snow Mountain region as a National Monument!

President Barack Obama
The White House
1600 Pennsylvania Avenue NW
Washington, DC 20500

Dear President Obama:

On behalf of our more than one million members and supporters, we ask you to permanently protect the Berryessa Snow Mountain region as a national monument.

The Berryessa Snow Mountain region stretches more than 100 miles and encompasses more than 350,000 acres across Napa, Mendocino, Lake, Solano, and Yolo Counties. All five counties within the Berryessa Snow Mountain Region have endorsed permanent protection for the area, which is rich in biodiversity, including species like bald and golden eagles, black bears, mountain lions, river otters, and tule elk, not to mention rare plants found nowhere else on the planet and important sources of drinking water and irrigation for nearby communities. The region also includes numerous trails, open spaces, lakes, and rivers, providing recreation opportunities for hikers, bikers, campers, hunters, boaters, and others.

Our members have joined the groundswell of local families, business owners, environmentalists, and elected officials asking you to use your authority under the Antiquities Act to protect the Berryessa Snow Mountain region as a national monument. As you know, Rep. Mike Thompson and several of his fellow California members of Congress have attempted for years to get the U.S. Congress to designate the area as a National Conservation Area. In 2013, Thompson introduced House of Representatives Bill 1025, the Berryessa Snow Mountain National Conservation Area Act. Senator Barbara Boxer introduced S.483, a companion bill in the Senate, but Congressional gridlock stopped the proposals in their tracks.

At this time, it appears unlikely that Congress will move forward on proposed legislation that would accomplish the same goal, although we are also supportive of the new version of federal legislation introduced recently by Rep. Thompson and Senators Feinstein and Boxer. We deeply appreciate the efforts of so many elected officials and California’s environmental and recreation advocates over these last several years to collaborate with the community on permanently protecting this local and national treasure.
In December 2014, CLCV staff attended a public meeting in Napa with Interior Secretary Sally Jewell and United States Department of Agriculture Under Secretary for Natural Resources and Environment Robert Bonnie, along with hundreds of other attendees who were overwhelmingly supportive of permanently protecting the Berryessa Snow Mountain region. Many local residents including business owners, students, wilderness advocates, and scientists testified that national monument status will have immediate benefits for the local community and economy. In particular, a national monument designation will bring new resources to improve the experience of visitors and local residents alike.

Last year, you used your executive authority to permanently safeguard two major areas of wilderness in California. We hope that the Berryessa Snow Mountain region is next on your list. Permanently protecting the Berryessa Snow Mountain region as a national monument would be a win for the community, the economy, and the environment. Please listen to local voices of support and act to preserve this national treasure for future generations.

We thank you for your leadership on protecting public lands so that all Americans will enjoy them for generations to come.

Sincerely,

Sarah Rose

Dear President Obama:

We are writing on behalf of the International Mountain Bicycling Association (IMBA). IMBA is a non-profit educational association, whose mission is to create, enhance and preserve great experiences for mountain bikers worldwide. Since 1988, IMBA has been bringing out the best in mountain biking by encouraging low-impact riding, volunteer trail work, participation and cooperation among different trail user groups, grassroots advocacy and innovative trail management solutions. IMBA's worldwide network includes 40,000 individual members, more than 150 IMBA Chapters, 300 supporting bicycle clubs, more than 175 corporate partners and about 200 bicycle retailers. IMBA's members live in all 50 States, most Canadian provinces and about 30 other countries. We represent thousands of mountain bikers who ride on, or would like to ride on the public lands that comprise the proposed Berryessa National Monument.

The International Mountain Bicycling Association supports permanent protection of the Berryessa Snow Mountain Region.

Over the years, we have collaborated with Tuleyome, a regional conservation group based in Woodland, California. We have also worked extensively with Congressman Mike Thompson and Senator Barbara
Boxer. These efforts have been aimed at preserving the many natural resources in this region, as well as protecting the recreational interests of the mountain bicycling community. These partnerships have been important and productive.

The Berryessa Snow Mountain region is the crown jewel of Northern California’s wild inner Coast Range. It is one of the most biologically diverse, yet least known regions of California. Located less than one hundred miles from the Sacramento and Bay Area metropolitan regions, the area is a dazzling outdoor wonderland rich in unique natural features and loaded with recreational opportunities.

These public lands stretch nearly one hundred miles from the shores of Lake Berryessa to the flanks of Snow Mountain. This region offers extraordinary recreational opportunities, including mountain biking, hiking, horseback riding, hunting, camping, fishing, bird watching, use of motorized vehicles in designated areas, water recreation, and more.

Permanent protection of this region will improve economic opportunities for the local economies; increase coordination between federal agencies; provide well-managed recreation opportunities including off road vehicles; safeguard the area’s natural beauty, sensitive areas, wildlife and rare plants; and ensure the continued use and enjoyment of these lands for future generations.

IMBA conditionally supports permanent protection for the federal public lands of the Berryessa Snow Mountain region as a National Monument if the presidential declaration includes the protections for the mountain bicycling community embodied in the legislation that we all support.

Thank you for considering our remarks. Please contact us if we can provide further information.

Very truly yours,

Michael Kelley

Subject: Support for National Monument Designation for the Berryessa-Snow Mountain Region

Dear President Obama,

The Board of Directors of the Yolo Audubon Society (YAS) enthusiastically endorses the proposal to designate the public lands in the Berryessa-Snow Mountain area as a National Monument. These existing public lands include Lake Berryessa in the south, near sea level, and Mendocino National Forest lands in the Snow Mountain Wilderness in the north, at over 7000 feet elevation. There is a tremendous range of ecological conditions within these 100 miles, including oak woodlands, chaparral, mixed-conifer forests, rare high-elevation red fir forests, and alpine scrublands.

Conservation scientists have identified this ecological landscape as an Essential Habitat Connectivity linkage for the State of California. The conifer forests in the northern portion of the proposed NM include late-seral forests important for Northern Spotted Owls and Pacific Fishers under the Northwest Forest Plan. The overall diversity of landscape elements supports high plant species richness in the proposed NM, contributing to the status of the California Floristic Province as the only “biological hotspot” identified by Conservation International in the United States. The proposed NM includes serpentine-dominated landscape areas that are a haven for numerous rare plant species.

The lands included in the proposed NM will enable the plants and wildlife species in the region to respond to the effects of climate change as temperatures increase and precipitation changes. Evidence indicates that climate change has already altered forested landscapes throughout the western United States, and scientific projections indicate likely future changes because of increased fire frequency and altered precipitation. Protecting the proposed NM will help the ecosystems in the region adapt to climate change by facilitating adaptive shifts northward and upslope, providing refugia for species whose ranges are affected by climate change.

Establishing a National Monument will improve coordination among federal agencies, providing coherent approaches and additional funding. The future holds important challenges for federal land managers. Existing conservation management approaches may require adjustment, or even potentially significant changes, resulting from altered climate and changed cultural settings. Adjusted approaches may be needed to meet increased demands for water downstream. Increased fire frequency may change management concerns for wildlands and the wildland-urban interface.

A National Monument designation will improve federal agency responses to all of these conservation concerns. For these reasons we support the Berryessa-Snow Mountain National Monument.

Sincerely,

Chad Roberts
Conservation Chair

Roger Adamson

Washington, D.C. 20500

Dear President Obama:

Thank you for all that you have done and are doing each day for our country. Your calm demeanor and extensive efforts on behalf of peace and prosperity are greatly appreciated.

I write today to ask that under the Antiquities Act of 1906 that you protect California's Berryessa/Snow Mountain, 350,000 acres spanning Napa, Mendocino, Lake, Solano and Yolo Counties.

The area is rich in a diversity of plants and animals. At a time in our State when four years of drought have made it very clear that we must conserve watershed lands in order to sustain life as we know it, conserving Berryessa/Snow Mountain is a wise investment on many levels.

Thank you for your consideration.

Sincerely,

Janet S. Cobb, Executive Officer

1600 Pennsylvania Ave. NW
Washington, DC 20500

Dear President Obama:

Back Country Horsemen of America (BCHA) have been in communication with our California BCHA State organization and The Wilderness Society and concur with their expression of support for you to designate the Berryessa Snow Mountain National Monument.

BCHA’s mission is to perpetuate the common sense use and enjoyment of horses in America’s back country and wilderness and to ensure that public lands remain open to recreational stock use. We support the protection of the Berryessa Snow Mountain region. We respectfully request that you use your authority under the Antiquities Act to preserve this area as a national monument.

BCHA was organized with the assumption that we would be a different type of organization, not the usual special interest operating as a protest group. It was felt that a service organization, doing work in the back country and on our public lands, would lend credibility to our organization. Since 1995 we have contributed 3,710,693 volunteer hours for an in-kind value of $100.6 million – a partnership with our public land managers that benefits all wildland trail users.

Back Country Horsemen of America strongly supports permanent protection for the Federal lands of the Berryessa Snow Mountain region as a national monument. Thank you for your efforts to preserve the Nation’s special places and our recreational opportunities.

Sincerely,

Jim McGarvey
BCHA Chairman

Dear President Obama:

My name is Jorge Julian Guzman. I go by Julian. I go to SRIS (Shirley Romey Intermediate School) in Winters, CA. Anyway, I wanted to ask (along with my whole school) that if you could protect the Berryessa Snow Mountain Region and declare that it should be a national monument.

One of the reasons I want it to be
declared is that we won't make A LOT of animals extinct because if we start to build a city or something, they're going to have to destroy a lot of the animals' homes and if they destroy them, then some animals might be extinct after that. You should really save it from all that destruction. Save it for future generations. Save it for once and for all!

Sincerely,
Julían

Dear President Obama:

My name is Ernesto Villabobe
Mrs. Mays' student. I live in Winter Springs East Main Street 32.
Winter is right next to Berryessa Snow Mountain Region. I am writing to you because I think it is very important that you permanently protect Berryessa Snow Mountain Region as a national monument.

One reason why I think we should protect the Berryessa Snow Mountain Region is...
because of all the plants and animals that live there. Also, it provides a lot of recreational activities such as hiking, bass fishing, white rafting, boating, hunting, mountain biking, and horseback riding. I would like to do all those things.

Sincerely,
Ernesto V.
President Barack Obama
The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C. 20500

Dear President Obama:

My name is Celeste Garcia and I am 10 years old and I go to Shirley Rominger Elementary School 5th grade. I live in Winters, CA and I love nature and so does my family. I'm sure you've got many letters about the subject Berryessa Snow Mountain. I guess my letter would make one more in the pile (If you keep them in a pile).

I want to help preserve the natural beauty in Berryessa Snow Mountain, not to mention the animals that live there. I also know you like animals so I am hoping your part...
in saving the Snow Mountain
by making it a National
Monument 'cause that's what everyone
is saying it will save it. Of course,
you might not want to, but listen
to the people! I would love if
you wrote back!

Please, Please, Please make
Burryessa Snow Mountain a
National Monument!

Sincerely, Celeste Garcia

P.S. I'm sure Bo and Sunny would
love to take a hike in Snow Mountain!
Dear President Obama:

My name is Brinly Bronson. I'm 9. I live in a small town and our town is very close to the Berryessa Snow Mountains. I heard that this beautiful place was in danger and I want to help save it. If we don't help it now, it will be gone forever. It's not just me that wants to help; many people and 100 businesses are trying to help. Another reason is that many animals will become extinct and plants will die out if we don't protect this area.
President Obama, protect the Berryessa Snow Mountain Region by making it a National Monument. Please write back.

Sincerely yours,
Brinly
President Barack Obama
The White House
1600 Pennsylvania Avenue N.W.
Washington D.C. 20500

Dear President Obama:

I am Ava Skinner and I am in 4th grade. I am writing to tell you to please protect the Berryessa Snow Mountain Region. I want you to declare it a national monument. Let me tell you why.

Berryessa Snow Mountain Region is a place that should be permanently protected. It has awesome places to swim, hike, fish, hunt, camp, and kayak or boat. Sometimes people horse-back ride. I would love to horse-back ride on a trail. But, my
dream of horse-back riding on a Berryessa trail might never come true if people build skyscrapers and offices on that land. That is my first reason why you should protect Berryessa Mountain Region.

My second reason you should protect the Berryessa Mountain Region is because of the animals! Look at the poor animals. If we build malls and shopping centers, some animals might die out. Plus, my second favorite animal is a black bear and I don't want it to be extinct. So, please declare the Berryessa Mountain Region a National Monument so it can be protected.

Love, Ava Skinner
President Barack Obama
The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C. 20500

Dear President Obama:
I am an eighth-year old fourth grader from Winters, CA. I am writing this letter to you because some of the species of animals in the Lake Berryessa Snow Mountain are endangered. This could affect food chains, and webs, explorers looking for nature, and scientists studying the animals so they can help you save them. You can help the endangered animals repopulate back to normal. After all, you ARE the president. You can make it illegal to hunt the endangered species like people did with sea otters in the old times.
President Barack Obama
The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C. 20500

Dear President Obama:

My name is Marissa Rodrigues-Herrera. I live in Winters, California and I am 9 years old. I am writing to you because we want to protect the Berryessa Snow Mountain Region by making it a National Monument.

I want to protect Berryessa Snow Mountain Region because there are tens of animals who live there. It's sad because they're in much danger. For example, these beautiful butterfly called the Arowhead Blue butterfly. There are these super cute Humboldt Marten.
that's in danger along with the long Eared Myotis. There are a lot of animals are endangered and plants like the Tespers' Milky Vetch. They are being instinct by habitat destruction. Please save these animals and plants.

Please President Obama, save these animals and plants.

Sincerely, Marissa

Washington D.C.  

Dear President Obama:  

My name is Mackenzie Godden. I am a student in Winters, California. Why I am writing to you because I want to protect the Berryessa Snow Mountain permanently.  

There are so many species of animals there, so many types of plants there too. A lot of people make YouTube videos about wanting to make the Berryessa Snow Mountain completely protected. Then people can have fun at Berryessa Snow Mountain.
President, I'm asking you to protect the environment of animals that live at Berryessa Snow Mountains.

From,
Mackenzie Godden
President Barack Obama

1600 Pennsylvania Avenue, N.W.  
Washington, D.C. 20500  

Dear President Obama  

My name is Greta Hauser and I would love if you could protect Berryessa Snow Mountain. I live here in Winters and need nature so I can explore new things. They have so many things to do and memories to hold.  

One reason I think Berryessa Snow Mountain should be protected is there is nature with so much fun like hiking, baseball, riding, and camping.  

Sincerely yours,  
Greta Hauser
President Barack Obama
The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C. 20500

Dear President Obama:

My name is Alexander. I'm a student in Winters California. And I go to Shihly Ramanger School. And I think you should permanently protect Berryessa snow mountain region. Because if we don't the animals won't survive and we can't go hiking or swimming or anything else.

Respectfully, Alexander Cecil
President Barack Obama
The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C. 20500

Dear President Obama:

My name is Yamilet Duran but you can call me Yami. I am ten years old and I go to Shurly Rominger Intermediate School. I live in Winters, California and I am writing to you because I want you to help us permanently protect the Berryessa Snow Mountain and make it a national region.

One reason why I think we should protect the Berryessa Snow Mountain is because it is a home of many plants and animals. Also, I like to go swim in the lake every summer and it would be sad for it to go away. So please, please, please help us.
Sincerely yours,

Yamilet Durán
President Barack Obama
The White House
1600 Pennsylvania Avenue NW
Washington D.C. 20500

Dear President Obama:

My name is Josef Iter and I am from Martinez, California. Why I am writing to you today is to protect the Berryessa Snow Mountain region by making it a National Monument.

One reason I think we should protect the Berryessa Snow Mountain region is because of the beautiful hiking and the grand experience and the animals like the
North American beaver and the Northwestern pond turtle, I would also like to catch a Clearlake Hitch or the hike I would want to see a Cooper's hawk.

That is why you should protect the Berryessa Snow Mountain Region by making it a National Monument.

Yours sincerely, Josef Ten.
President Barack Obama
The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C. 20500

Dear President Obama:

My name is Grayson Roberts. I'm from Winters, California. I live right next to Berryessa Snow Mountain Regional, and I would like you to make it a national monument. I want you to do that because the animals there and plants may be endangered soon.

Here are some of the animals that need the plants or rivers in the region. Some of the animals are River Otters, Beavers, Bald Eagle, Goshawk, Humboldt Marten. These animals are
great animals to watch and also learn about

There is also recreations, These are the recreations are hiking, fishing, bird watching, river rafting, camping, and lots of other things.

That is why I want you to make Boneyessa Snow Mountain Region a monument

Yours truly

Washington, D.C. 20500

Dear President Obama:

My name is Calista Cardinale. I live in Winters, California and I am 10 years old. In my opinion the Berryessa Snow Mountain should protected to be a National Monument. I would love it you save the area very near by my home.

If you save the area future generation can continue on. My family is always out there because it is a beautiful place and I would be
devasted if it was destroyed. I would also be very heart broken if you made all of these animals leave their homes. And if you do put buildings there what about the plants and the people that are going to miss the area? I really hope you read this letter because the Berryessa Snow Mountain means a lot to me.

Sincerely, Calista
President Barack Obama
The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C., 20500

Dear President Obama:

My name is Evan Paris. I live in Winters, California. I would love for you not to build homes and I like to go on my boat on the lake. If you do, you never can get it back and the animals and it never comes back. If you do, we will get ride of nectar, this is what I want not to happen.

From: Evan
President Barack Obama
The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C. 20500

Dear President Obama:

My name is Makayla Garland. And I go to a school called Shirley Romerger. The town that we live in is very close to the Berryessa Snow Mountain and I think we should protect the Berryessa Snow Mountain because it is a wonderful place to go swimming, camping, fishing, and hiking.

If you would, please protect the Berryessa Snow Mountain. It will be around for the future. So please, please, please protect the Berryessa Snow Mountain.
If you would please write a letter back to me and I hope it will say that you will protect the Berryessa Snow Mountain.

I hope you have a great day, Mr. President Obama. It was really nice writing a letter to you. But keep in mind that if you save the Berryessa Snow Mountain it will be there for the future.

Sincerely, Makayla
President Barack Obama

The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C. 20500

Dear President Obama:

My name is Javier Bermudez. I am a student in Shirly Rominger in Winters, California. I am a 5th grader writing to you about asking you to making the Berryessa Snow Mountain a National Monument.

One reason why I think that the Berryessa snow Mountain should be a monument is because
peoples children or even future generations should enjoy the walk, hike or even hunt. Some people say that when you lose a species, you could never recover that species. That is the same thing with land. Once you lose land, you can never recover it.

Please protect Berryessa Snow Mountain Region. Sincerely, Javier Bermudez
President Barack Obama
The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C. 20500

Dear President Obama:

My name is Haley Archibeque. I'm a student at Rominger, Winters C.A. I'm in fifth grade, age 10. I am writing to you because I think it is important that we protect the Berryessa Snow Mountain Region by making it a National Monument.

One reason I think we should protect the Berryessa Snow Mountain Region is all the fun things you can do like, hunting and fishing, horseback riding, and hiking. There are other fun activities that I'm not
going to menticin.

There are many species of animals living there. Amphibians, Birds, Insects, and Mammals. The American Badger and American black bear are some of them. They are both almost extinct from being hunted.

This is why I think you should protect Beryessa Snow Mountain by making it a national monument so people won't destroy the beautiful landscape.

Sincerely, Haley

Please help!
President Barack Obama  
The White House  
1600 Pennsylvania Avenue, N.W.  
Washington, D.C. 20500

Dear President Obama: My name is Harlee Molina. I live in Winters, California. I am writing to you because I am telling you to protect the Breezy Snow Mountain. A couple of reasons why you should protect the Breezy Snow Mountain is because once it is gone, it will never come back. Animals will be hurt, maybe even they will be extinct, and kids, grandkids, generations, swimming, wildlife, people can boat, swim, tube, hike, have fun. Please protect The Breezy Snow Mountain and please declare this a monument.

Sincerely, Yourse, Harlee Molina
President Barack Obama
The White House
1600 Pennsylvania Avenue, N.W.

Dear President Obama:

My name is Rylie Schroeder. I am in 5th grade and I am ten years old. I live in Winters, California. I am writing this letter to tell you about the Berryessa Snow Mountain near my beloved home. I would love it if no one would build any buildings, hotels or factories. If they put any of those things it would destroy the area, and I would want my children and my grandchildren to experience it to.

If any buildings go on the Berryessa Snow Mountain, wildlife will be destroyed. All kinds of animals like the Bald
Eagle, the Burrowing Owl, and the Arrowhead blue butterfly will be extinct and when it's gone you'll never get it back. Wildlife is so important everyone should experience this lovely land. Please don't destroy Berryessa Snow Mountain. Thank you for listening.

Sincerely

Kylie Schroeder
President Barack Obama  
The White House  
1600 Pennsylvania Avenue, N.W.  
Washington, D.C. 20500

Dear President Obama,

My name is Ethan Demment. I am 9 years old, and I'm in 4th grade. I live in Winters, California, and I go to Shirely Pominger Intermediate School. I'm writing to you because I want you to protect the Berryessa Snow Mountain Region by making it a National Monument.

One of the two reasons is all of the recreational activities will be lost due to future mining.
projects, housing, and future factories.

So please, President Obama, make the Berryessa Snow mountain Region a national park.

Sincerely,
Ethan
President Barack Obama  
The White House  
1600 Pennsylvania Avenue N.W.  
Washington D.C. 20500  

Dear President Obama:  

My name is Andrea Nicole Avirja, and I am 10 years old.  
I am a student at Shri lij Ramengui Intermediate school  
and the reason why I'm writing to you is because I think  
we should protect the Berryessa Snow Mountain region because it is home  
to animals and plants.  

The animals and plants will die. People swim in that lake and we also get food from  
there, like fish when Berryessa is
gone its gone. The fana butterfly is starting to disappear and other animals too. So that is why I want to make Berryessa Snow Mountain to become a national monument.

Sincerely yours,

Andrea Nicole Avina
President Barack Obama
The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C. 20500

Dear President Obama:

My name is Emily Aguilar. I am 10 years old and in 5th grade at Winters Elementary School, in Winters, CA. I am writing to you because we need to protect the Berryessa Snow Mountain Region as a national monument.

One reason we need to protect this place is because there are many species of plants and animals that live in that region. For example, the badger is an endangered animal that inhabits this area. It would become extinct if we tear up its home. There is also the beautiful Peregrine Falcon. It is an amazing bird, but if people come in and build on the Berryessa Snow Mountain Region, the Peregrine Falcon will run out of places to nest.

My second reason is that the Berryessa Snow Mountain Region is a great place for recreational activities. You can swim, ride horses and go boating on Lake Berryessa. It would be sad to see many skyscrapers and pollution surrounding a beautiful area. I love this place, and I would hate to see it land in the hands of those mean, selfish, uncaring people who will tear this place up and kill the animals.
with it.

Will you please, please, please protect the Berryessa Snow Mountain Region as a national monument. We will really appreciate it if you write back.

Sincerely Yours,

Emily Aquinaz
President Barack Obama
The White House
1600 Pennsylvania Avenue, N.W.
Washington, D.C. 20500

Dear President Obama:

Hi, my name is Joseph Aguiar. My aunt is the mayor of Winters, CA. Winters is not far from Lake Berryessa and the Berryessa Snow Mountain. I'm writing to you because I want you to make the Berryessa White Mountain a national monument so it will be permanently protected.

One reason I think you should make Berryessa Snow Mountain a national monument is because of all the beautiful views and all the great stuff you can do, boating,
fishing and hiking are just some of the things you can do. If we don't protect it, none of our kids, grandkids, and future generations will not experience the same excitement and memories that we experience doing these things in the great outdoors.

Another reason that Berryessa White Mountain should be permanently protected is all the cool wildlife that lives there. From badgers to frogs, all of these animals can't stand up for themselves, so we have to stand up for them. Many of these animals are on the verge of extinction.
so President Obama, please make our Berryessa White Mountain a national monument. Once it's gone, you can never get it back.

Sincerely yours,

Joseph A

😊😊
Dear President Obama

I am writing to you because I think we should protect the Berryessa Snow Mountain Wilderness area. We could make it into a National Monument. Preserving the most biologically well-known area of the state would be a blessing to our community. These public lands cover over one hundred miles of Berryessa in the south and stretch all the way to Car creek. Located less than one hundred miles from Sacramento, on the Bay area, Berryessa/Snow Mountain Region is a dazzling outdoor

Sincerely: Joanna Cuenas Candelaria
Dear President Obama,

I am writing to you because I think you could help protect the Berryessa/Snow Mountain Wilderness Area. We would love it if you could make it a National Monument.

I want you to protect the Berryessa Snow Mountain. We want to protect the plants and the endangered animals. The animals are being captured by the humans. The animals don't have any freedom.

Their would be a lot of fun things to do when there is animals around. The animals All of the animals need to be out in the wilderness to live and to go and get food.

Now you know why I think it should be a National Monument.

Sincerely: Gustavo Jimenez
Dear President Obama,

Hi Mr. President I think all of us should protect the Berryessa/Snow Mountain Conservation Area. I also think you should make it a National Monument.

The Snow Mountain has endangered animals and plants. Here are some of them, lady bugs, skinks, bald eagles and elk. So we should protect the Snow Mountain.

There are all kinds of fun things to do up in the Snow Mountain to do. Like hiking, camping, grazing, horseback riding, hunting, fishing, boating, mountain biking, off road A.T.V. riding but only in some places, rafting/kayaking plus more. Those are only some fun things to do.

If you don't make Snow Mountain a National Monument all those animals and plants could become extinct. I like lady bugs, bald eagles and elk and all the beautiful environment. If you turn it into a National Monument more people would come up here to see how
Aug 29, 2014

Dear President Obama,

I am writing to you because I think we should protect the Berryessa/Snow Mountain Wilderness Area. I think you should make it a National Monument.

Sincerely,
Saul

This student has been in the U.S. only 6 months.
Dear Mr. President Obama,

I am writing to you because I think we should protect the Berryessa/Snow Mountain Wilderness Area. I think you should make it a National Monument.

We should do this because there are animals that are endangered and we should protect them and save them.

People should enjoy it and look at the nice beauty of Berryessa/Snow Mountain and go hiking or going in the water with a boat so people can enjoy fun things.

If we don't do something about people could ruin there habitats and build houses and roads and that can kill the animals and beautiful plants.

So if we don't preserve this area people will miss out on the fun and so no animal gets hurt.
Dear President Obama,

Hi President Obama I'm writing this to you because I want to save the Berryessa Snow Mounatins Wilderness Area. I think you should make it a National Monument.

I think that you should make it a National Monument so that the endangered animals have a place to live. I like to see animals when I go on hikes especially the lizards. I love animals.

There are a lot of fun things to do at Lake Berryessa like going hiking, boating and tubing, and camping. I just did all of those.

I really hope that you make it a National Monument so I can have some fun and help the endangered animals. Can you make it a National Monument please?

P.S. Please write back. Sincerely,

Aislynn
Dear President Obama,

Today I am writing to you because my class wants you to preserve the Berryessa Snow Mountain wilderness. Please. There are some animals in endangered species. We have fun.

The plants and animals are cool. I want them to be safe there like us. I don't want anything to die. Plants and animals are in danger can you help the Snow Mountain please?

We like hiking there we can swim, ride bikes, and go boating. We can have a fun time. And no littering there. There can be a trash can there. My family will like it.

If you don't the animals will be in danger like trees falling down when they live in the trees it can probably make a fire by the trees rubbing together. It makes fire the animals will be on fire. That's why we should save Berryessa Snow Mountain.

Sincerely,
Jesse Purr

Jesse Burr
Dear President Obama

I am writing to you because I think we should protect the Baja California snow mountain wilderness area. I think you should make it a national monument. We should not litter and we should have security guards. Some people should plant flowers and don’t let people do houses.

Mr. Obama probably you could put booby traps or you could put booby traps or you could have police men and also you could talk to those people that live closer to the mountain.

You should put some people to recycle so animals don’t drink bad water or so they can’t die.

Sincerely, Antonio Sanchez
Dear President Obama,

Hi my name is Madison Lopez. I'm going to tell you some thing about me. I have the same birthday as the first President and I'm 10 years old.

I think we should protect the Berryessa Snow Mountain Conservation Area. I think we should make it into a National Monument for Winters.

If you say yes people can have so much fun looking at it and walking on the trail and many other outdoor activities.

If we don't get the National Monument, people could make roads on the Monument, the animals will die, the moss will not live, the poppies will die too.

Thank you for reading my letter.

Sincerely, Madison Lopez
Dear President Obama,

I am writing to you because we should protect The Berryessa/Snow Mountain Wilderness Area. I think that place should be a National Monument.

The plants at Berryessa, I believe, some are endangered because we treat them poorly. And that's a big thing. I heard plants absorb carbon dioxide (CO₂) and make oxygen (O₂) out of carbon dioxide. And plants prevent global warming, and sometimes fire. And we all know that's what makes a forest.

There are fun things you can do in Berryessa, like running, exercising, playing, exploring, and discovering. The Berryessa mountains, land, and gap weren't made for destruction. They were made for beauty and fun.

If we don't protect it, the future could end up in a total disaster. That's why we should protect the Berryessa mountains, land, and gap the best we can. If we protect it falsely, the people that are non-eco-friendly can go right through our defenses. But we shouldn't make it too strong.

Sincerely, David
Dear President Obama,

I am writing to you because we should protect the Berryessa Snow Mountain Wilderness Area. I think that place should be a National Monument.

The plants at Berryessa, I believe, some are endangered because we treat them poorly. And that's a bad thing. I heard plants absorb carbon dioxide and make oxygen out of carbon dioxide. And plants prevent global warming and sometimes fire. And we all know that's what makes a forest.

There are fun things you can do in Berryessa. Like running, exercising, playing, exploring, and discovering. The Berryessa mountains, land, and gap weren't made for destruction. They were made for beauty and fun.

If we don't protect it, the future could end up in a disaster. That's why we should protect the Berryessa mountains, land, and gap the best we can. If we protect it fairly, the people who disrespect nature can go right through our defenses. But we shouldn't make it too strong.

And that's why it should be a national monument. Tons of plants could die, fun activities will be gone, and the future can be a total klutz if we don't do anything.
Dear President Obama,

I am writing to you because I think we should protect the Berryessa Snow Mountain Wilderness area. We could make it into a National Monument. Preserving the most biologically well-known area of the state would be a blessing to our community. These public lands cover over one hundred miles of Lake Berryessa in the south and stretch all the way to Cosumnes Creek. Located less than one hundred miles from Sacramento on the Bay Area, Berryessa Snow Mountain region is a dazzling outdoor.

Sincerely, Joanna Serrato Sandoval

Dear president Obama,

I am writing to because I think we should protect the Berryessa Snow Mountain wilderness area because is a nice place to stroll and to have a picnic and to have fun with your friends.

To save the animals and their home to live the animals alone like freedom and we can go to a walk with your family and we can have a picnic.

Now you know why you should protect the Berryessa Snow Mountain because is a nice place.
